Issue 29

WB 20th May 2019

This Week at Hearsall

I am so excited to share our news this week that the Sainsbury's Community Team came on Tuesday to paint the whole area after the Melbourne Hall. This is currently unused and is now lovely and freshly painted. 40 volunteers came from all over the country to give their time free to help Hearsall. It was wonderful to see so many people giving up their time to help our project. This means that Horizon can relocate soon and have more space and more facilities for children before and after school. Mrs Bailey will also be able to finally move into the new Thrive room!

As part of the day children in Years 5 and 6 had a special assembly led by 3 people from Sainsbury's to talk about their 150th anniversary followed by future technology. The children were told all about future developments in technology including quantum computing, neural lace, driverless cars, till-less shops and even the Large Hadron Collider! It was exciting to see where technology will take us in the next 30 years!

A huge thank you to all the volunteers and employees of Sainsbury's who came to make such a difference to Hearsall.

A couple of before and after pictures..

A huge well done to all the Year 2 children who have been completing their 'special quizzes' over the last couple of weeks. The children have worked really hard and showed real resilience and determination.

It has come to our attention that the latest craze for a lot of children are the Infinity Nado toys. Can we please ask all parents to ensure children **do not** bring these into school. These toys have a metal surround which can fly off as they spin at high speed and has already caused an injury in school.

Already we are at the end of the first half of summer term and are beginning our countdown to the end of the year and the transition to new schools, new classes and new teachers! I hope you enjoy your half term and get to spend some quality time with your children in the sunshine. If you need great ideas to keep children busy don't forget the National Trust 50 Thing to do before you are 11 $\frac{3}{4}$!

Have a lovely holiday, see you back on **Monday 3rd June**.

Other News

Nursery and Reception

This week in Nursery we have had lots of fun and have been very busy learning about the 'Little Red Hen'

The children were very excited to make bread just like the Little Red Hen did.

This week Reception have been learning about 'The Rainbow Fish.' The children have enjoyed sewing fish, creating a paper chain octopus. We have learnt all about how the Rainbow Fish learns to be a

good friend and we have even been writing sentence with an adjective to describe him.

Year 1 and 2

Year One have been working really hard this week to use directional language. On Monday afternoon they went outside and worked in small groups to find the pirates buried treasure. The children had to listen to the directions carefully, making sure they turned the right way for left and right. It was a lovely activity and all the groups managed to find the treasure!

Year 2 have been experimenting in Science this week. Deciding how much water to add to mud to make a wall. They also had a challenge set during circle time this week to build the biggest tower out of spaghetti and marshmallows, not as easy as it looked, but they all showed great teamwork skills. In Theme they have been learning to programme the Beebots to find the treasure on a pirate map, learning to turn it North, South, East and West, as well as forwards, backwards left and right

100% Club Attendance

Class % Attendance			
RP	95%	3H	94%
RW	93%	4W	98%
1T	99%	4L	89%
1C/P	94%	5J	94%
2N	94%	5G	98%
2C	95%	6T	96%
3P	95%	6M	94%

Well done to 1T on the highest attendance this week!!

Year 3 and 4

Year 3 were incredibly lucky this week to have a workshop delivered by a visitor from Severn Trent. We learned all about the water in our world, where it comes from and how we can do our part

to conserve water. We also worked on measuring different amounts of water which could be used for different activities.

This week Year 4 have been traveling down Route 66. We explored what route 66 is, what can be found along its length and planned our very own road trip. We chose meals and hotels as well as activities to do in various cities and tried to stay within a generous budget! In science we looked at colloids, substances that have the properties of liquids and solids. We made a great mess with it! Overall, we all had a great time. Enjoy half term! The Year 4 Team!

Years 5 and 6

This week, Year 5 have not only welcomed Mr. Vickers to our year group, but have also enjoyed discovering what happens to salt when it is added to a lemonade & oil mixture and learning all about rivers. We have performed our latest Harry Potter hip-hop dance number to each other and continued to learn how to bat and field during cricket lessons. From all the Year 5 team, we hope you all now enjoy a lovely half term holiday.

Last Friday the Year 6 enjoyed a well-deserved visit Memorial Park to celebrate the KS2 SAT tests.

children to the War the end of

Unfortunately, the weather was not at its best but the children certainly enjoyed the opportunity to 'hang out' and relax with their friends, following a challenging week of KS2 assessments. Here are a few photos from the trip:
