

3 POWER Points:

- Can you design and make a toy out of recycled materials? (Plenty of ideas can be found online).
- What toys do children in other countries play with? Choose a country and compare their toys to your toys.
- Can you write a set of instructions explaining how to play with your favourite toy? Don't forget to include photographs or drawings!
- Make a video showing your favourite toy. Can you explain what it is made out of? Where did you get it from? Can you explain why it is your favourite?

2 POWER Points:

- Imagine your toys came to life at night. What might happen? Where would they be? What adventures would they go on?
- Can you write a rhyming poem about a toy?
- Can you build a model out of Lego and describe how you did it?
- Set up your own toy shop at home and think of prices for each of your toys. Which is the most expensive/cheapest?

Key Stage One Autumn Term 2020

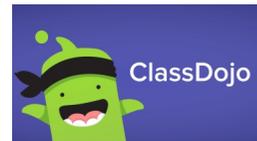

This term's POWER Project is:

'In the Toy Box'

To be completed by:

Monday 7th December 2020

We would like the 'Power Projects' to be completed in a similar way to the 'Home learning projects' during lockdown. Please take photos of any work/projects/models that are completed and upload them onto the 'Portfolio' area of your child's class dojo page. This will minimise the amount of books/models that are being brought into school. Children will still be provided with a book so they can keep a record of their project. We look forward to seeing all of the wonderful projects the children produce at home!

**Choose projects to achieve your minimum
5 POWER Points.**

By all means go over 5points!

**Tick off what you have completed to achieve
your points.**

2 POWER Points:

- Can you design a toy that children might play with in the future? What would it be made of? What would it do? Draw and label your design.
- Can you design a poster to advertise a toy? Make it bright and colourful so children would want to buy it!
- Look at the toys in your house. What are they made of? Can you create a pictogram to show the different materials you found?
- What is the oldest toy in your house? Who did it belong to and how old do you think it is? What materials is it made out of?

1 POWER Point:

- Choose some of your favourite toys, can you order them from smallest to biggest? From heaviest to lightest?
- Go to the library and see if you can find any stories about toys. Which is your favourite? Can you film yourself reading the story?
- Can you think of a toy for every letter of the alphabet? Write them down and add some pictures.
